

PRACHURJYA KALITA

Geography Student & Wildlife Conservation Researcher

Detail-oriented Geography undergraduate specializing in geospatial analysis and ecological field research. Proven track record in international wildlife conservation projects, camera trap arrays, and acoustic monitoring deployment. Adept at translating remote sensing data into actionable conservation insights, with technical proficiency in QGIS, RTK drone workflows, and field-based mobile data collection matrices.

TECHNICAL CORE

• GIS / Remote Sensing

QGIS (Advanced User), ArcGIS basics, Sentinel-2A Multispectral Processing, LULC Spatial Analysis & Mapping Layouts

• Field Methodologies

RTK Drone Flight Workflow, Precision GPS Field Collection, Passive Acoustic Sensor Installation

• Wildlife Analytics

Camera Trap Grid Deployment, Matrix Surveys via Kobo Toolbox, Population Estimation Models

AFFILIATIONS

WWF India

Active Volunteer — Field programs, data support & conservation awareness campaigns.

LANGUAGES

• Assamese (Native)

• English (Professional)

• Hindi (Fluent)

Field Research Experience

Research Volunteer — Tiger Monitoring & Population Estimation

Orang-Eastern Assam & Kaziranga-Karbi Anglong Landscape | Assam, India

- Collaborated on an international field research initiative funded by the Rufford Foundation (UK) and University of Wisconsin-Madison (USA).
- Systematically deployed and calibrated large-scale camera trapping grids for population density models.
- Supported the setup, field positioning, and raw acoustic data extraction of passive bioacoustic monitoring units.
- Designed and executed standardized field questionnaires using Kobo Toolbox.

Geospatial Technology & Applications Intern

Geocentre Corporation Pvt. Ltd. | Mangaldai, India (120 Hours | 2025)

- Processed multi-spectral spatial datasets and executed advanced Land Use Land Cover (LULC) classifications.
- Mastered core fundamentals of RTK (Real-Time Kinematic) drone flight workflows for mapping.
- Conducted physical ground-truthing data collection using handheld high-accuracy GPS receiver units.

Academic & Research Publications

Lead Author & Spatial Researcher

The Hargila Desk | Assam, India (Published 2025)

- Published a peer-reviewed research village study: 'The Vanishing Green Heritage of No. 2 Mazgaon', analyzing local habitat fragmentation and baseline biodiversity loss.
- Conducted spatial analysis on local micro-ecosystems using Sentinel-2A Level-2A satellite data to accurately map vegetative cover depreciation over time.

Education Background

B.A. in Geography (Honours) — 6th Semester

Mangaldai College, Gauhati University | Assam, India (2023 — Present)

- Maintained core focus on Spatial Analysis, Climatology, Environmental Practical Layouts, and Cartography.
- Higher Secondary (AHSEC) — 2023 | Score: 82.0%
- HSLC (SEBA) — 2021 | Score: 93.0%

Declaration & Endorsement

I hereby declare that the clinical, technical, and spatial data information provided above is authentic and accurate to the best of my knowledge.

A handwritten signature in black ink that reads "Prachurjya Kalita". The signature is written in a cursive style with a horizontal line at the end.

Signature of Applicant
